

Outside the

My favorite place
in the world is
inside my mind!

3 rules of thumb:

Be yourself, think about details
and keep going!

My career was launched by the design of the splash
screen for a computer program, something like
an astrophysics.

No music while I work. But when I drive, I pump up
the volume! My car hosts an eclectic mix of
Gogol Bordello, Lady GaGa, Sting, Cesaria Evora,
Too Many Zooz, Madonna and Goran Bregovic.

I admire my peers for their ability to think
outside the box...

I wake up every morning
and say to myself...
Leave it and keep going!

When I dream BIG, I dream of a world blessed with
honesty, where skills and knowledge rule instead of
money and social connections.

I wish I could have
thought of
Gutenberg's Bible
myself...
nothing less.
