

Be Playful,

I have always been very keen in visual art. As a child, I was surprisingly selective and demanding, I clearly knew my likes and dislikes...

Sono Italiana ...

But I've lived in several countries and cities... Barcelona for many years, Shanghai for a decade, and now Nottingham in the last few years. I find values of all these places infused in my work.

From the inspiring ideas of William Morris, to the beautiful work of Toulouse Lautrec and the never-ending experimentations of László Moholy-Nagy, many talents inspire me. I admire the work of contemporary designer Stefan Sagmeister. I love his broad and experimental approach, especially the fact that he consistently challenges his own life.

I'd put on a Miles Davis' jazz vinyl and have textile designer William Morris, artist Victor Moscoso and photographer Oliviero Toscani over for dinner any time, any place!

Be Analytical,

I particularly enjoyed working on the Peace One Day series ... it went hand-in-hand with my biggest dream of changing the world!

Be Brave
