

An 11-year-old version of myself designed my mother's dress, shoes & handbag for my brother's Bar Mitzvah. Later, that same Avi would design an evening gown for President Jimmy Carter's First Lady, on official travel in Israel in 1979.

# Rocket Man!

Imagine being a rocket that could travel around the world and visit new planets, new places! I'd go for that!

As long as I find beaches such as in Tel Aviv, St. Maarten, Ibiza, Mykonos, I'll feel free, inspired and full of dreams. A real Places... Un poisson dans l'eau!

I am lucky to call both Canada and Israel, home. Born in Israel, my DNA is Polish, Egyptian, Israeli & Ukrainian and I bring my cultures & roots to my design, undeniably!

I quite envy the creator of the Louvre's pyramid. In many people's minds, it does not fit the space. To me, the old palace and the modern glass pyramid keep the space interesting, relevant and evolving.

What a dream to see some of my signature styles shown in museums, such as the fantasy dress designed for the Jewish People Museum in Israel.

In my dreams, I share my mother's Egyptian cuisine with guests Jim Morrison, Sex Pistols' Johnny Rotten and the one and only David Bowie. What can I say... Music truly inspires me!
