

Hear the Whispers of the Future

Design is everywhere and must never be missing!
There are no rules to design, only ingredients.
Passion, trust and gratitude must never lack.

Shout out to my peers who turn normal objects into unusual and interesting pieces in more ways than one.

The complex work of international branding and communication of CIFF, China International Furniture Fair launched my career. The book Inside Out Design for Progetto CMR epitomizes it!

Santiago Calatrava is of great inspiration. The Mediapadana railway station in Reggio Emilia, Italy he designed is a marvel I wish we could have thought of myself!

Italy is part of my know-how. For sure, being Italian gives an imprint to my work in ways far larger than I am even aware of.

I'd have a fantasy dinner date with the late and most-admired Achille Castiglioni, Frank Lloyd Wright and Tamara de Lempicka any day of the week!
I'd make them my linguini con scampi!
