

Feeling Grateful and Having Fun!

I always loved art especially LETTERS/FONTS. I used to always be in charge of bulletin boards all through school. I always knew I wanted to be part of a creative industry.

Designers' ability to take an idea and create something extraordinary fascinates me! I've made it my mission to market and promote their talents and I am most proud of having managed the IIDEX Canada trade show and conference from 1984 to 2016.

I just watched the Raymond Moriyama documentary "Magical Imperfection" and was so inspired by his history and body of work.

I deeply admire Charles and Ray Eames and proudly own one of their pieces...

**The Leg Splint
Circa, 1946!
It's one of my
most prized
possessions.**

I simply love the collaborative story of the Canadian flag creation! It's one of my all-time favorite objects and stories and I wish I could have thought of Toronto City Hall by Finnish architect Viejto Revell. A marvel!

**I'd be happy to be a
Boston Terrier and
run around all day in
Ontario's Algonquin
Provincial Park...
oh-so beautiful!**
